AA CATER TRUCK MFG

Established in 1971

AA Cater Truck brings you the latest design in Mobile Catering Vehicles with an all aluminum body and advanced structural design. A mobile Catering Vehicle that is functional and attractive will draw customers and provide the maximum service with minimum effort. AA Cater Truck, featuring a body by HIVCO, tapers upward from the rear wheel to the tail to allow clearance over dips and driveways. This is an example that every inch has been designed with an eye for safety, efficiency and form. This complete restaurant on wheels not only offers breakfast, lunch, dinner and snacks, but it is ideal for parties, fairs, and many different types of catering.

AA CATER TRUCK MFG

THE CUSTOMER IS ALWAYS KING IN OUR BUSINESS!
